Spiral Calendar

Folded Card

— New Value-added Printing Solution —

Capture more sales for your shop as the widening popularity of digital and mobile phone cameras drives up the number of pictures people are taking. Fujifilm helps you expand your photo business by providing value-added printing services that create more ways for customers to enjoy their photographs.

New Solutions for the Frontier Series

Frontier Series

New ways to enjoy photos in a multi-shot era

Shuffle Print

Randomly arrange numerous images in one print. With these new solutions for enjoying photographs in the digital era, Fujifilm is expanding the options for printing images from data that customers store on memory cards or other media. Compatible with wide 20 x 30 inch prints.

Example of template with two large photos

- Add all memories on one sheet!
- Just select the desired images and the software automatically arranges them!

- Insert titles and other text
- Enlarge any two prints
- Edit images (rotate, shrink, enlarge, move, adjust color)

Wide prints available with the Wide Format Inkjet Printer!

Innovative printing style with random arrangement and irregular shapes

Stained Glass

Extract the main subject and prepare cut-outs with random borders, arrange images like stained glass, then create prints with a unique presentation. Up to 40 images will fit perfectly on a sheet, as size is automatically adjusted.

Images can be mixed horizontally or vertically

Automatic layout prevents partially cutting off subjects

- Create an artistic layout!
- Simply select the images and let the software process the size and layout automatically!

Edit images (rotate, shrink, enlarge, move, adjust color)
