

- ✓High colour saturation.
- ✓Superb contrast.
- ✓Free beer.
- ✓Optimized gradation balance.
(yes, free beer)

You're invited to experience first-hand, the newest addition to the ETERNA family of motion picture film.

ETERNA Vivid 160 - the high contrast, high colour saturation motion picture film that breaks new ground.

But hey! Don't take our word for it. Come shoot Vivid 160 for yourself and discover how it can expand your palette. !!

It doesn't end there - join us November 5 for a screening & discussion evening with your peers to share what you discovered. We want to know what you think!
