

FUJIFILM SINGLE PACK DATA TAPE COURIER

■ INTRODUCING

The DATA TAPE COURIER, a one-size fits all, safe and secure media shipper. It can be used to transport data cartridges from one location to another or to off-site storage, in fulfillment of your company's commercial, proprietary and regulatory requirements. The DATA TAPE COURIER is certified and approved by FUJIFILM* to protect LTO cartridges and enterprise cartridges during transport.

* #1 supplier of 1/2-inch data cartridges in the U.S. per Santa Clara Consulting Group.

■ SPECIFICATIONS

- Clamshell designed to hold all LTO Ultrium, DLT® and all enterprise data cartridges.
- Certified and approved by Fujifilm for safe data tape transportation.
- Shippers are designed for single use and are 100% recyclable.
- Lightweight and easy to use.
- Single Pack DATA TAPE COURIER includes specially molded plastic clamshell, shipping carton, Tamper Evident Seal and moisture-resistant sleeve.
- Length : 191mm / Height : 52mm / Depth : 178mm
- Shippers are 160g.

The unique, DATA TAPE COURIER system offers a custom thermal molded plastic clamshell which safely cradles a single data tape cartridge. The clamshell snaps closed and is then placed in the corrugated shipping box.
