

Finance automation for business growth

Discover enterprise-level
finance automation for
smooth productivity gains.

Transform financial management from passive to powerful

Use the power of finance automation to optimise accounts payable, accounts receivable, and cash management processes for growth.

At FUJIFILM Business Innovation Australia, we understand the critical importance of maintaining a robust, secure, and responsive digital financial ecosystem that delivers smooth customer and vendor services, with complete financial control in real-time on any device.

We can help you integrate a finance automation solution that encompasses the full range of cash flow and accounting management, including all accounts payable and receivable functions. We work with you to build flexibility and scalability – start with just one process or implement an end-to-end system.

Finance automation overcomes most interface challenges and boosts stakeholder confidence and employee satisfaction levels alike.

Overcome traditional accounting challenges and free up people and cash flow for real business growth:

From challenge

to competitive advantage

Processing roadblocks

- Simplified invoice processing
- Automated approvals management
- Integrated system workflows

Reduced accuracy

- Minimal errors
- Less duplication of effort
- Less auditing and troubleshooting

High cost per transaction

- Drastically reduced costs
- Reduced document handling
- Improved productivity

Difficult data management and retrieval, limited reporting

- Real-time visibility with actionable insight
- Tightly controlled spending
- Integrates with business ecosystem

Employee boredom and frustration

- Employee satisfaction with variable duties
- Higher staff retention
- Improved working conditions

Restricted response to supply chain demands

- Reduced supply chain frictions
- Happier suppliers
- Loyal return customers

Accessibility with robust cybersecurity

- Data privacy measures included
- Security protocols imbedded
- Regularly updated for adherence to industry standards

FUJIFILM Business Innovation Australia can help

We work with you to custom-design a finance automation solution for business growth using reliable, industry-leading platforms.

Identify your accounting processes that need updating to improve speed, visibility, accuracy, and control.

Accounts payable, including expense management

- Invoice capture
- Data extraction and verification
- Workflow – routing, coding, review, approvals
- ERP upload and payment processing
- Visibility and management insight

Accounts receivable, including credit and collections management

- Account creation
- Invoice generation and order fulfilment
- Payment follow up
- Payment acknowledgment and processing
- Collections
- Customer reconciliation
- Cash allocations

Why partner with FUJIFILM Business Innovation Australia?

In today's fast-paced world, businesses of all sizes still struggle with a paper-heavy legacy slowing their digital future and creating drag on that bottom line.

We understand your dilemma. FUJIFILM Business Innovation Australia has been helping people in business to accelerate growth and bridge the gap between paper and digital for six decades. Digital transformation is more than a buzzword for us. Our team will design a custom finance system from our comprehensive, brand-agnostic portfolio of enterprise solutions.

Trust our experience and expertise to help you:

Boost internal efficiencies and improve customer experiences

Transform unstructured data into actionable insights

Collaborate across every platform, removing siloed systems

Unlock the full potential of your digital transformation
