

A3 Monochrome Multifunction Printer

FUJIFILM Business Innovation Corp.

New Times, New Apeos

The new "Apeos" offers advanced features with high security level and easy operability to help business diversify with times. "Apeos" devices are able to connect smoothly with a variety of solutions and services to realise an all new agile remote workstyle of working anytime, anywhere.

Equipped with easy-to-use interface and strong security features to create seamless remote work culture

 Multi-feed detection
 *1: A4 LEF. *2: Optional. *3: When both sides of a sheet are scanned through a single pass using the Duplex Automatic Document Feeder. *4: Print Function.

High performance for greater work efficiency

Minimise wait time for greater productivity

- First copy output time in 3.6^{*1} seconds
- Machine warm time and recovery time in less than 30 seconds^{*2} and 11 seconds respectively
- Smart WelcomEyes detects a user and automatically "wakes" the machine up from sleep mode *1 · A4 | FF
- *2: Embedded Plug-ins / Custom Services: When enabled.

Reduce unintentional information security risk with sensory alerts

- Reminds user of uncollected original or printed document on the trays
- Prevents uncollected documents left on the Center Tray or Feeder
- Center Tray light further notifies when a fax is received on the Side Tray
- Sound notification for originals left on the document glass

Effortless operations with retractable tray mechanism

- One soft push for closing
- Retracts softly and gently
- Drawing out is effortless

Quick information extraction for high volume workflows

- Up to 160 ppm* can be read at high speed in Scan
- One pass DADF will not damage the original document
- Equipped with multifeed detection • Up to 130 sheets can be loaded
- * 1 pass, 2 sided scanning, 200 dpi to folder.

Quick operations with direct DADF scanning for custom size documents

- Supports minimum size of 49 mm(W) x 85 mm(L) *
- Instantly scan without manual entry of each original size
- Multiple sheets of original can loaded and scanned together

* Applicable for paper weight 38-209 gsm

Various finishing options are available according to your needs

Supports single and double Staple-free Stapling^{*1}

*1: Applicable models: Finisher-B5, Finisher-C5, and Finisher-C5 with Booklet Maker.

*2: Finisher with Punch Unit is available. *3: Optional

*4: Booklet Maker is required. When specifying Saddle Staple or Single Fold with Finisher

- B4/B5, paper is not folded but creased
- *5: Folder Unit is required. *6: 80 gsm or less

Various options are available according to your needs

With 2 Tray Module and Side Tray

• All models come with standard 2 Tray

With Stand

Paper capacity of up to 1,130 sheets

Paper capacity of up to 2,170 sheets with separate output trays

With Tandem Tray Module

Finisher-C4/C5

Paper capacity of up to 3,200 sheets

High Capacity Feeder

Maximum paper capacity of 6,140 sheets* * Standard + Tandem Tray Module + High Capacity Feeder B2.

High Capacity Feeder B1 High Capacity Feeder B2

· High Capacity Feeder B1 can feed 2,000 sheets High Capacity Feeder B2 can feed 2,940 sheets

- Automatically converts custom-size originals to standard size

Staple

Quick and simple operability

Simple layout with easy navigation

Black and gray tone UI gives better contrast for easy recognition.

- Icons are evenly spread for easy recognition
- Consistent operation steps of each function for easy recall
- Home screen personalisation for ease of access to commonly used functions
- Pin regular settings for registering frequent or repeated jobs
- Clear visible light notifications for completed or error jobs
- Subtle sound notification for alert and attention

Smartphone becomes a "portable operation panel"

Seamless connectivity with mobile devices for Copy, Fax, Print, Scan¹ jobs using the Print Utility² application.

- Mobile device can be used as an alternative UI for operations control to minimise common touch points
- Frequent settings can be saved as "Favourites"
- Directly send fax or email with the addresses stored in the smartphone
- Minimise printer touch points for hygiene reasons
- Quickly establish direct Wi-Fi connection by scanning the QR code on the user panel
- Note: Connect to machine via wireless environment or Wi-Fi Direct connection.

*1: Scan to Mobile, E-mail, Scan to Folder.

*2: It can be downloaded free of charge from Google Play™ or App Store.

Flexibility in office layout

Supports wireless LAN environment^{*1}.

- Supports free addressing in the office with Wi-Fi support
- Up to five Wi-Fi Direct multifunction devices can be connected at the
- same time
- Supports direct mobile printing^{*2}
- Print Utility, AirPrint, and Mopria[®] Print Service are supported
- *1: Optional.
- *2: When connecting to Wi-Fi Direct.

Print out from any multifunction device within the office

With Server-less On-Demand Print*, you have the flexibility to print and collect the print outs from any of the connected multifunction devices.

- Improves productivity by printing from another available multifunction device when the current device is in use
- Up to 100 units can be linked
- Specific job settings can be revised at the device level to save time (1 sided to 2 sided, adding staple)
- * Optional.

Simple device management with Server-less Authentication

Server-less Authentication* enables user information to be synchronised among multifunction devices in the same group and allows administrators to reduce their workloads.

- Simply tap your card to link the user ID with the multifunction device
- The ID information is automatically shared with the other multifunction devices in the same network
- Authentication can be performed with any devices in the office
 * Optional.

Various features saving time and effort in scanning operation

Scanned data can be transferred through a variety of methods including Email, URL, and send to PC (SMB/FTP/SFTP).

- Data can be sent by using multiple features simultaneously
- Improve your digitalisation process with features including automatic orientation of scanned page to upright position, correcting the skewed page, or removing blank pages
- In addition to TIFF and JPEG, the scanned data can be converted to OCR-enabled* or high compression/ specific colour PDF or DocuWorks documents. Also they can be converted to editable Excel/Word documents*.
- With ScanAuto, you can easily send the scanned data to your e-mail address by simply pressing a button
- * Optional.

Digitisation of paper documents for effortless document management

With Scan Delivery*, you can automatically process and store scanned images by simply pressing the preset button for each workflow or document type.

- Automate to set file format, file name, OCR*, etc.
- Automatically stores scanned and processed documents in the appropriate destination
- Specify particular words or characters in a document as the folder or file name
- Ø and other frequently mis-recognised characters can be read correctly
 * Optional.

Streamline operations for remote work style

Do not miss any faxes when you are working remotely

Paperless fax function automatically stores received faxes into folders which can be transferred to a PC or sent as emails.

- Received faxes can be forwarded to your mobile device by email
- Received faxes can be transferred to Working Folder^{*1}
- It can be sorted by fax number, date received, and person in charge^{*2}
- $\bullet\,$ Incoming fax processing can be switched by time, day of the week and ${\rm period}^{*2}$
- For example, you can switch from paper-based output to an electronic transfer in a single operation^{*2}
- *1: Cloud services provided by FUJIFILM Business Innovation. A separate contract is required.
- *2: Optional.

Share information anytime, anywhere

With Working Folder* and internet access, documents can be viewed regardless of time and location.

- Can be linked smoothly with multifunction devices, DocuWorks, and mobile devices
- Documents in Working Folder can be printed from the control panel
- Scanned documents will be assigned a file name and stored in Working Folder. An email notification will be sent to relevant users

 \ast Cloud services provided by FUJIFILM Business Innovation. A separate contract is required.

Supporting Universal Print by Microsoft

By registering multifunction devices to Universal Print by Microsoft in advance, users^{*1} authenticated with Microsoft Entra ID^{*2} can print from anywhere through cloud.

*1: Organizations with or Microsoft Windows Enterprise or Microsoft 365 subscriptions. *2: Formerly Azure Active Directory.

Initiatives for environmental consideration

We are working to develop environmentally conscious products, including technologies that reduce the power consumption of multifunction devices and printers to achieve lower environmental impact. Fujifilm Group introduced the certification program in which we clarify the environmental value of each product by assessments at the time of product development, conduct the evaluation based on our in-house certification criteria and certify the products* that are excellent in reducing environmental impact as "Green Value Products". This product was certificated as a "Gold" rank product that contributes to reduction of environmental impact at industries' highest level.

* Products and services excellent in reducing environmental impact are those designed in consideration of environmental impact throughout their life cycle from acquisition of raw materials, production, usage, disposition, to reuse.

Initiatives for energy conservation

- Achieve both energy conservation and customer convenience by adopting IH fusing technologies that enable quick heating to eliminate the necessity of preheating in standby or powersaving mode
- Achieve both high image quality and energy conservation by equipping the LED printhead that enables space and energy saving design, as well as Super EA-Eco toner that has lowtemperature fusing performance
- Reduce the power consumption with the smart power saving feature that solely powers on the required parts according to the functions being used by customers

Easy and secure output even when you are working remotely

With Cloud On-Demand Print*, you can register documents from a PC or mobile device to the cloud server and print them from the designated multifunction device.

- Can be operated securely using a User ID and password
- Fear of loss or stolen data is minimised
- No dedicated driver is required
- \ast Cloud services provided by FUJIFILM Business Innovation. A separate contract is required.

Centralised cloud integration

Cloud Service Hub* allows single sign-on to multiple cloud storage services.

- Specific storage location can be assigned for scanned documents directly from the multifunction device
- Searching documents from multiple cloud services is supported
- Full-text search on scanned documents can be performed with OCR

 * Cloud services provided by FUJIFILM Business Innovation. A separate contract is required.

Initiatives for resources conservation

- Staple-free stapling that helps reducing waste and that also can be used with peace of mind at certain places where need considerations for safety or any contamination
- Functions contributing to paper consumption reduction
 Private Charge Print, Scan, Paperless Fax, Pages per Side/Multiple-Up etc.
- Adopt design for making products easy to reuse/recycle after use

Safeguard important information

Information is an important asset which should be protected at all cost

Protect from unauthorised user

Multiple options of setting user authorisation allow administrator to select a right combination as per given environment.

- Local Authentication
- Authentication by Remote Server*
- IC Card Authentication*
- User-specific feature access
- Private Charge Print
- * Optional.

Additional layer of unwanted access can be created for specific users (e.g. guests).

- Secondary Ethernet Kit*
- * Optional.

Protects Data

Protects against any malicious intent of hacking, tampering with device / system settings.

- Encryption of stored data
- Uses TPM* 2.0 chip for encryption key management
- Deletes settings and document information all at once
- * Trusted Platform Module

Protects the information by means of strong encryption while transferring it between devices, servers etc.

- Encryption of communication paths by SSL/TLS or IPsec
- Encryption when transferring via SMBv3 and SFTP
- Scan file encryption/signature
- Email encryption and signature by S/MIME
- TLS version limit
- Elliptic curve cryptography
- WPA3

Protect from unauthorised access

Protects device settings at multiple levels by clearly demarking change restrictions for different target audience - End users, IT administrators and Service Engineers.

- Service representative operation restriction
- Account lock to prevent unauthorised access
- Information for changing the default password
- Warnings displayed when using global IP address

Prevents unauthorised program from installing without notice. Robust IT audits are supported with device data logs for easy tracking.

- Software signature verification
- Remote update restrictions
- IP address filtering
- Tampering detection at startup and automatic restoration when tampering is detected
- Prevention of tampering during operation
- Audit log
- Audit log system transfer

Prevents operation errors

Prevents information leakage due to inadvertent mistakes by administrators and users.

- Scan documents to be delivered to fixed destination
- Re-enter fax recipient
- Annotations
- Hidden text printing*
- Digital code embedding and tracking function*

* Optional.

Security certifications

 Certified with ISO/IEC 15408, which is the international standard for designing and operating IT security

Reliable support system

Easy solutions to resolve problems

From supplies replacement to unexpected device failures, most problems can be resolved without waiting for the service representatives or sales representatives.

1. Resolve problem using the "Help" function on the device

- Self Help information is available on the control panel
- Self Help information can be accessed via the mobile device by scanning the QR code displayed on the control panel

2. "Remote Assistance" with the help of operators

Connects directly to the Support Centre
An operator will remotely access the multifunction device to resolve the problem by guiding through the steps on the shared control panel

Keeping a close eye on your multifunction device on a daily basis

Monitoring the multifunction device status to minimise operation down time.

- Check billing meter
- Automatically delivers consumables when cartridges level is low
 Detect machine errors for early invention to rectify the problem
- Note: You need to apply for using the EP service. (free of charge)

Making a backup of multifunction device's settings

Device Setup Editor is a free tool which helps you both, in editing device setting and creating a much-needed information backup for business continuity reasons.

- A back up the device / printer settings can be created onto the PC
- Administrator can optimize device usage by viewing/editing these settings, best suited for their environment.
- When installing a new device, these settings can be migrated (or cloned) from the existing device to the new device

Item		Description	
Туре		Colour Scanner	
Scan Resolution		600 x 600 dpi, 400 x 400 dpi, 300 x 300 dpi, 200 x 200 dpi	
Scan Speed		Same as the Scan Speed for the Duplex Automatic Document Feeder	
Interface	Standard	Ethernet 1000BASE-T / 100BASE-TX / 10BASE-T	
Interface	Optional	Wireless LAN (IEEE 802.11a / b / g / n / ac)	

Note: Installed for Model-CPS as standard

Fax Function (Optional)

Item	Description	
Original Size	Max: A3, 11 x 17", Long document (Longest 600 mm)	
Recording Paper Size	Max: A3, 11 x 17"; Min: A5	
Transmission Time	2 seconds and more but fewer than 3 seconds ^{*1}	
Transmission Mode	ITU-T G3	
Applicable Lines	Telephone subscriber line, PBX, Fax communication (PSTN), Maximum 3 ports ^{*2} (G3-3 ports)	

*1: When A4 size document with approximately 700 characters is transmitted in standard image-quality (8 x 3.85 lines/mm) and in high-speed mode (28.8 kbps or faster, JBIG). Only indicates the time for transmitting the image information and does not include the communication control time. The total communication time will vary depending on the contents of the document, the type of machine receiving the fax, and line condition.
 *2: No. of FAX lines is up to 3 ports. Port refers to number of channels for FAX.

Duplex Automatic Document Feeder B2-PC

Item		5570	4570	
		Max: A3, 11 x 17"; Min: A6 ^{*1} 38 to 128 gsm (In Duplex: 50 to 128 gsm) * ²		
Capacity*3		130 sheets		
Cara	Copy (A4 LEF, Simplex)	55 ppm	45 ppm	
Scan Speed ^{*4}	Scan	160 ppm, Colour	olour: 80 ppm (1 pass, 2 sided scanning: f · 160 ppm) nent (A4 LEF), 200 dpi, to Folder]	8/W
*1: The minimum custom size is 49 x 85 mm.				

*2: Custom sizes from 49 x 85 mm to 55 x 91 mm are available from 38 to 209 gsm. *3: 70 gsm paper. *4: The scanning speed varies depending on the documents.

High Capacity Feeder B1 / B2 (Optional)

Item	High Capacity Feeder B1	High Capacity Feeder B2
