Huddle room | Meeting room

Simply a powerful all-rounder collaborative device.

The power of all-in-one.

Simplify and streamline by consolidating traditional communication devices into an all-in-one setup. Say goodbye to projectors, microphones, cameras, interactive whiteboards, PC's, speakers, trailing cables, and technical interruptions. The Newline Q+ Pro can also be mobile or fixed in place, thanks to wireless connectivity.

Health and safety comes first.

Newline Q+ Pro has a TÜV-certified antimicrobial coating, a physical blue-light filter, and optical bonding. This means your display is light but sturdy, safer than non-bonded touchscreens, with improved viewing angles and touch accuracy.

Collaboration made easy.

Take charge with simple, intuitive controls - no need to have a technical expert in the room, with wireless plug 'n 'play versatility. You can change presenters at will, make changes using the interactive touch screen, and see and hear everyone in the meeting with wide-view 4K clarity and powerful 2-way sound quality.
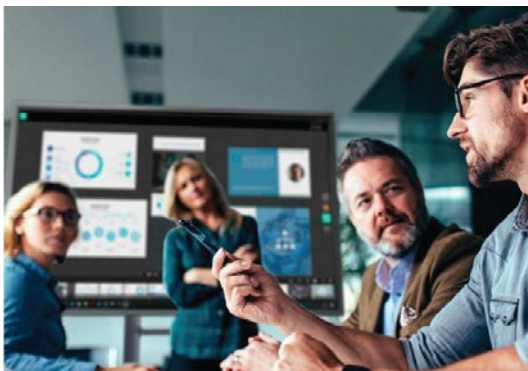

Keep your information safe and feel supported.

The Newline Q+ Pro has multiple security defences and settings like a USB lock, profile passkey, meeting data administrative protection, plus Android 13 OS and WIFI 6 certification. With easy web-based device management and the FUJIFILM Business Innovation New Zealand customer service advantage - be assured that support is available wherever you are, should you need it.

Almost limitless capabilities.

Compatible with Zoom, Teams, Google, and more. You can also access a broad range of apps with Android connectivity to encourage engagement and problem-solving for any audience.
