

Fuji Xerox mobility solutions

Seamless work environment with easy connectivity.

Transform Business with Mobility

Fuji Xerox mobility solutions offer customers with a choice of integrating their Multifunction devices, smart phones and cloud services for a seamless work environment. Combining features like NFC (Near Field Communication) with Wi-Fi direct, users can further enhance their experience on selected Fuji Xerox devices.

Fuji Xerox Print Utility App

Enables users to print directly from iOS or Android devices. Whether it's an iOS or Android device, Fuji Xerox Print Utility App put mobile printing and scanning convenience at your fingertips. Allowing you to print stored photo albums, web pages or shoot and print on the go from your iOS or Android device.

Print Utility

Free App Download

> [Download for iOS](#)

> [Download for Android](#)

*Customers can simplify cloud printing requirements by using Fuji Xerox Print Utility App's direct connectivity option with Fuji Xerox [Cloud Service Hub](#).

Wi-Fi Direct

With Wi-Fi Direct feature, users can directly connect their smart phones with Fuji Xerox multifunction devices to print. Utilizing Wi-Fi-Direct feature in addition to normal LAN / WLAN connections, customer have a choice of further securing their print environment by providing separate printing options to their guests and employees respectively.

* Wireless LAN Converter or Wireless LAN kit is required to use Wi-Fi function.

NFC Enabled

Fuji Xerox multifunction devices offer NFC technology for simplifying the print and scan processes. Using NFC technology, a contactless communication can be established between a mobile and multifunction device*. Simply wave your NFC enabled mobile device on the multifunction device to automatically launch Print Utility and you are ready to print or scan.

* To enable this you must install the Fuji Xerox Print Utility App.

* Mobile Touch Print & Scan Kit or IC Card reader – A type is required to use NFC function.

* Only selected Android smartphones with NFC enabled are supported.
