INNOVATION PRINT AWARDS 2024

Discover winning applications from all over the world

Welcome to Fujifilm Global Innovation Print Awards 2024

Welcome to the Innovation Print Awards 2024!

My excitement is mounting with the Innovation Print Awards going global in 2024! I cannot wait to see more interesting creatives and I believe you are having exact sentiments. The award has come a long way and we are extremely thankful to have received widespread recognition and support from our customers, not only from the Asia Pacific region but globally as well.

Through the award, our customers have demonstrated how Fujifilm technology has enabled them to produce exceptional work to captivate their audiences. And at the same time, they are also inspired by fellow professionals in the industry to think out of the box and print better.

With all of our customers' support, we are proud to reign as the industry leader with the widest range of production presses in the market, allowing our customers to unleash their potential and deliver creative yet customised print solutions to their customers.

Let us grow together as a global community and celebrate the power of creativity, innovation, and technology in the print industry. I am eagerly looking forward to seeing the outstanding entries from our FUJIFILM Graphic Communication customers worldwide.

See you soon.

With my best regards
