

Scan Translation Service

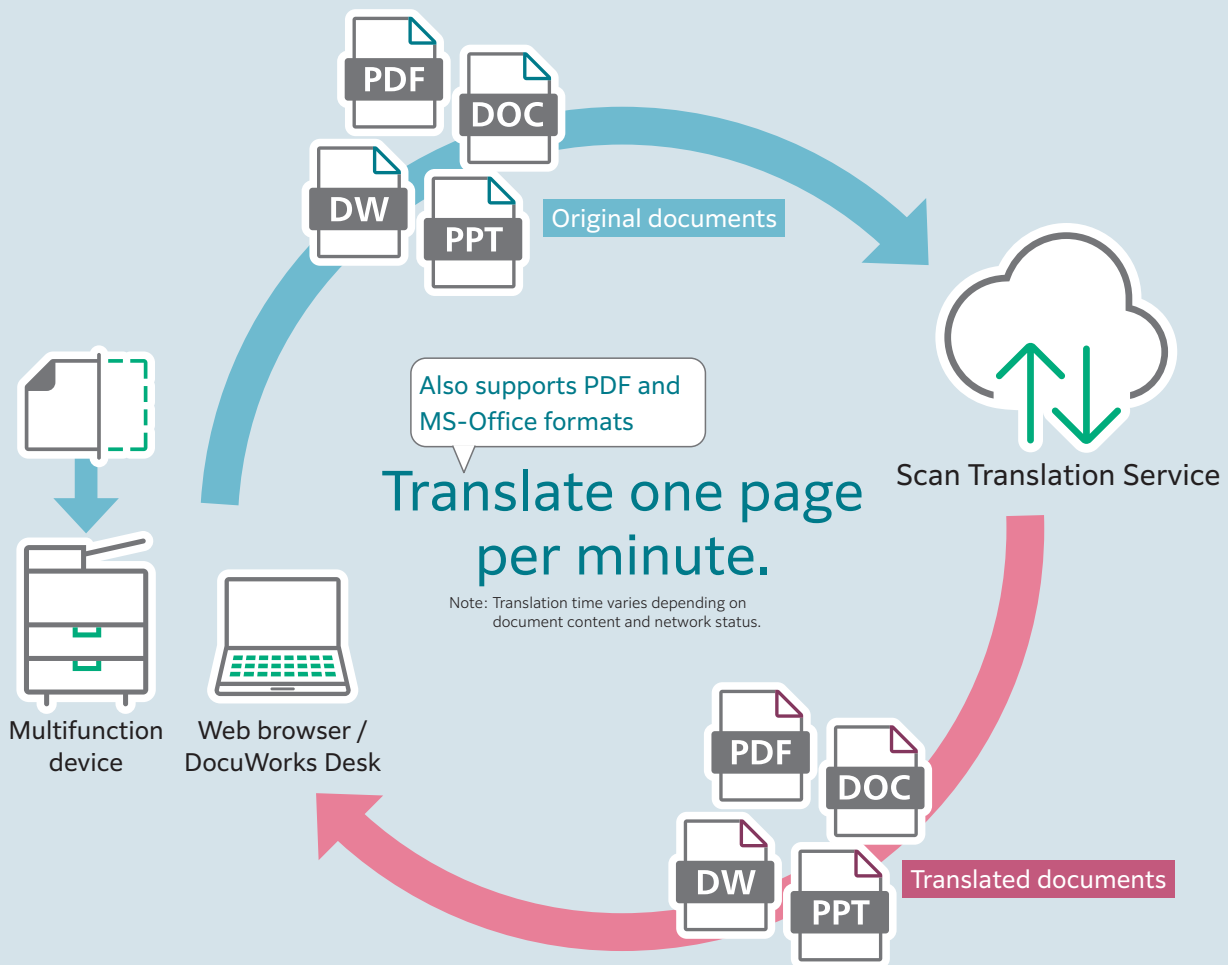

Machine Translation Cloud Service Linked with Multifunction Devices

Scan Translation Service helps overcome language barriers.

Our Scan Translation Service — which translates paper and electronic documents into different languages via FUJIFILM Business Innovation multifunction devices or our Cloud website — is used worldwide. In addition to facilitating communication, companies also employ it to improve business efficiency.

Make translation as easy as copying.

I want to translate electronic documents.

Upload a document using a web browser or DocuWorks Desk. Scan Translation Service translates it into the same file format as the original. You can download the translation from the URL received via email.

I want to translate paper documents.

Just scan documents on a multifunction device. Scan Translation Service translates the documents while maintaining the same layout. You can obtain the finished translation on a multifunction device or from a web browser.

How does it handle high-volume, documents?

Reading foreign language documents is troublesome. It takes too long to get the gist of content as other duties pile up.

Speedy translation for improved work efficiency

Scan Translation Service translates documents quickly in batches on a multifunction device or PC. Less time translating means more time for other projects.

How do you communicate easily with overseas partners?

Scan Translation Service can translate meeting documents into multiple languages. This facilitates productive discussions and information sharing among attendees from overseas branches.

Easily create multilingual documents

Scan Translation Service supports eight languages, allowing easy creation of documents in multiple languages. This helps translation and facilitates communication in international meetings. If participants can read documents in their native language, decision making is fast and smooth.

Main Features

Maintain the same layout for easy reference.

With Scan Translation Service, text is translated into different languages, but figures, images and layouts remain the same, making it easier to understand content. This service uses translation to facilitate communication between different languages.

Three translation display options

Three options are available for displaying translation results. Some show translations with the original text, making it easier to share information among people from different countries.

Text Translation (Replace original)

Translated text replaces the original text.

Text Translation (Ruby)

Translated text appears in small letters above the original text.

Word Translation (Ruby)

Translations appear in small words above the original text.

Note: Word translation is available only for Japanese-English documents.

Supports eight languages

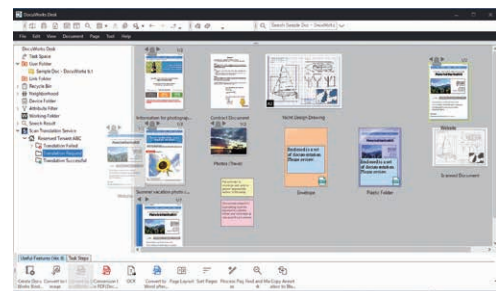

Chinese, Korean, Vietnamese, Indonesian and Malay translations are supported in addition to Japanese, English and Thai. For Japanese-English translations, specialized dictionaries and custom user dictionaries are available, which help improve translation accuracy.

Note: Thai to Japanese/English translation may be limited.

Note: This is a machine translation service, the accuracy of which may be limited. Translation accuracy can be improved by adding words to the custom user dictionaries. (User dictionaries are available only for Japanese-English translations.)

Collaboration with DocuWorks and Working Folder

Translation can be performed by a simple drag-and-drop operation from DocuWorks Desk.*1 Shared documents stored in Working Folder*2 Cloud service can be translated directly.

*1 Requires DocuWorks and DocuWorks Extended Folder for Scan Translation Service.

*2 Requires separate Working Folder contract.

Specifications / Operating Environment

Original Text / Translation Target Languages

	Original Document Language									
	Japanese	English	Thai	Chinese (Simplified)	Chinese (Traditional)	Korean	Vietnamese	Indonesian	Malay	
Translated Language	Japanese	Yes	Yes*1*2*3	Yes*1	Yes*1	Yes*1	Yes*1*3	Yes*1*3	Yes*1*3	Yes*1*3
	English	Yes		Yes*1*2*3	Yes*1	Yes*1	Yes*1	Yes*1*3	Yes*1*3	Yes*1*3
	Thai	Yes*1	Yes*1		Yes*1	Yes*1	Yes*1	Yes*1*3	Yes*1*3	Yes*1*3
	Chinese (Simplified)	Yes*1	Yes*1	Yes*1*2*3						
	Chinese (Traditional)	Yes*1	Yes*1	Yes*1*2*3						
	Korean	Yes*1	Yes*1	Yes*1*2*3						
	Vietnamese	Yes*1	Yes*1	Yes*1*2*3						
	Indonesian	Yes*1	Yes*1	Yes*1*2*3						
	Malay	Yes*1	Yes*1	Yes*1*2*3						

*1 Specialized dictionary, user dictionary and word translation cannot be used.
 *2 It is not possible to translate from a multi-function printer. Translations of PDFs from a computer are less accurate if text cannot be copied on-screen.
 *3 It is not possible to translate DocuWorks documents on a PC.

Specifications

Item	Description	
Number of Users	10-500 users (Depending on the contract of users)	
Number of Groups	Same as the number of users (Maximum)	
Number of User Dictionaries	100 dictionaries	
Number of Words per User Dictionary	20000 words per dictionary	
Authentication Management	User registration by administrator	
Authentication Method	User authentication by password	
Translation Results Retention Period*1	1-14 days (can be specified by administrator. The default setting is 5 days.)	
Number of Pages in Original Document (Paper)	100 pages (Maximum)	
Original Document (Digital)	Format	PDF Ver.1.3 / 1.4 / 1.5 / 1.6 / 1.7 (Extension: ".pdf") DocuWorks Ver.7.0 or later (Extension: ".xdw", Unicode Text) Word 2007 or later (Extension: ".docx", ".docm") PowerPoint 2007 or later (Extension: ".pptx", ".pptm")
	Size	100 MB (Maximum)
	Paper Size	Business card size-A3
	Restrictions	The following documents cannot be translated. Documents with security settings and pages with JPEG2000 images (Other pages are translated)

*1 Translation results that exceed the retention period for translation results are automatically deleted.

Operating Environment of Scan Translation Service

Item	Description
Supported Operating System	Windows 11 (64bit)*1 Windows 10 (32bit / 64bit)*1 Windows 10 Pro (32bit / 64bit)*1 Windows 10 Enterprise (32bit / 64bit)*1 Windows 8.1 (32bit / 64bit)*1 Windows 8.1 Pro (32bit / 64bit)*1 Windows 8.1 Enterprise (32bit / 64bit)*1
Web Browser	Internet Explorer 11*2 Google Chrome™
Required software	Adobe® Acrobat® Reader® DC*3 DocuWorks Viewer Light 9.1 or later

*1: The touch operation on Windows 8.1, 10, 11 are not guaranteed.
 *2: Windows 11 is not supported.
 *3: Required to browse the translated results.

Operating Environment of DocuWorks Extended Folder for Scan Translation Service

Item	Description
Required software	DocuWorks 9.1 or DocuWorks 9 or DocuWorks 8 DocuWorks Extended Folder for Scan Translation Service
