Next-generation of on-site Kiosk solution
Wonder Print Station

Meets the diverse needs of the Smartphone age.

For easier and more enjoyable print orders

Multi touch interface like smartphone

Adopting a multitouch GUI operated by touching and swiping with a fingertip just like smartphone, the "Wonder Print Station" enables an intuitive operation supported by simple and easy-to understand screen design.

Easy connection with smartphones

Connection with smartphones can be established either by cable*1 or Wi-Fi. NFC (Near Field Communication) devices*2 enable an easier connection with smartphone via Wi-Fi.

*1 Available only for iPhone
*2 Available only for smartphone with NFC functionality

Installation of dedicated application software into smartphone is necessary to connect via Wi-Fi

Stamps and graffiti features offer more printing fun

The "Wonder Print Station" enables you to easily edit photos, including graffiti and stamp-pasting functions available for more fun to print.

5sec. Comfortable operation with high speed image loading

It takes only 5 sec.* to load images from the memory card and display them on the screen. "Wonder Print Station" has a realized smooth and comfortable order operation.

*When reading 1,000 pieces of Exif JPEG images.

Expand your business with a variety of functions

Customizable menu and GUI design

The customizable menu expands your marketing capability. It features seasonal products, promotion of new products and a selectable GUI design to fit your store branding.

customize

Easier payment process with Shopping Cart feature

The Shopping Cart feature enables customers to pay for multiple products with one payment, facilitating the larger shopping baskets.

Automatic recommendation to support additional sales

Before the customer checks out from the Shopping Cart, recommended sample products are displayed using the customer's own photos.

High quality photo printing and easier image selection
by FUJIFILM Proprietary Technologies

● Image Intelligence™

Incorporated Image Intelligence™ automatically compensates for problematic conditions, such as poor lighting, backlighting, high contrast, underexposure or overexposure. Image Intelligence™ also makes skin tones more natural and facial expressions more distinct. Processing time is reduced because photo image correction is automatic at the same time ensuring attractive, customer-pleasing prints.

Original image   Optimized image

● Image Organizer

"Image Organizer" enables convenient use of digital images for attractive contents / products easier and more efficiently. "Image Organizer" has features as "Smart Select" to simplify complicated operation to select images, "Smart Layout" to make layout processes automatically, and "Smart Casting" to determine the key person for photo products like photobook.
