For some people, a day is just like any other day. For you, every day is unique. Only you can capture your story as you see it. Every moment is a memory waiting to be captured. The FUJIFILM X-T100 is your companion in everyday life, letting you document your day through photography.
Having a camera with you at all times changes your perception of things. Always looking for that next perfect subject to shoot. It naturally enhances your curiosity. Take the X-T100 with you and add some creativity to your daily life.

**PHOTOGRAPHY EVERYDAY**

**ELECTRONIC VIEWFINDER**
Excellent resolution, High-magnification EVF

The high performance EVF in the retro body allows you to compose your photographs clearly, even in bright sunshine. This experience is the true feeling of photography. Only an electronic viewfinder allows you to see exactly what your final result will be before you take the picture.

**COMPACT LENS**
Small, retracting zoom lens

With its comprehensive focal range, 3 stops effective optical image stabilization and 5cm close focus, the XC15-45mmF3.5-5.6 OIS PZ lens allows you to shoot a wide variety of photographs.

**SR AUTO MODE**
Scene & Subject Recognition

Advanced SR Auto mode recognizes the scene and the subject you are looking at and automatically optimizes camera setting and focus. It lets you take the best photos possible with minimal effort.

**RETRO & LIGHTWEIGHT**
Compact, classic body

With its portability, lightweight 448g body and retro styling, the X-T100 can be taken anywhere and everywhere in your daily life.
We always want to take the best possible pictures with those who are special to us. The X-T100 helps you to do this.

### 3 WAY TILT LCD

A three way tilt LCD monitor with selfie mode.

The 3.0 inch LCD monitor is able to tilt horizontally and tilt vertically. The horizontal flip is essential for taking self portraits in both stills and video modes. The vertical tilt is useful when you want to take pictures low down or up above. With the addition of touch control and self-timer modes, X-T100 has a variety of shooting options.

### IMAGE QUALITY

Color reproduction & Noise handling & Excellent resolution

X-T100 has the essential elements to make all aspects of your pictures look special: natural skin tone, beautiful color reproduction, low noise in poor light, and excellent edge-to-edge resolution. You can trust exceptional images will be produced thanks to FUJIFILM’s technology which is established from over 80 years in the photo industry.

### LARGE IMAGE SENSOR

Outstanding results

X-T100 is equipped with an APS-C sized image sensor which is 14 times larger than the sensor inside conventional smartphones. This is essential for capturing better quality images in low light and creating beautiful background defocus effect known as bokeh.
**FEATURE**

**FILM SIMULATION**
Replicate the look of classic film with a variety of FUJIFILM’s unique Film Simulation modes. Each setting has its own color temperature, contrast and sharpness to give your images a unique character. These options make it easier to create the look you want.

**ADVANCED FILTER**
Add an artistic touch and bring out the best side of your subject with in-camera Advanced Filters. Choose from a variety of filters and styles to add a unique touch to your photos.

**SUPER INTELLIGENT FLASH**
The flash automatically adjusts the amount of light released according to shooting scenes, letting you take natural-looking photographs.

**MULTI FOCUS**
Multi Focus mode adds multi images together to generate a sharp image with amazingly deep depth of field.

**4K MOVIES**
Capture the world around you in ultra high definition with 4K movie, bringing the atmosphere and emotion of a scene to life.

**4K BURST SHOOTING**
High resolution, high-speed continuous shooting lets you record fast-moving objects. Choose the best shot from the 15 frames taken in a second.

**WIRELESS CONNECTIVITY**
You can pair the X-T100 to a compatible smartphone or tablet using Bluetooth® for seamless transfer of your images so they can easily be shared with friends.

---

**4K BURST SHOOTING**
High resolution, high-speed continuous shooting lets you record fast-moving objects. Choose the best shot from the 15 frames taken in a second.
X-T100 features an elegant design and special anodized coating giving it the classic cameras feel. If you plan to use a camera everyday to capture precious moments, it must look as good as the images it produces. The X-T100 is the perfect camera that delivers total satisfaction in style, quality, and handling.
